

# CAMP FLIX

A SUMMER FILMMAKING EXPERIENCE IN ATLANTA, GA

## ABOUT CAMP FLIX

Camp Flix is the premier movie camp in Atlanta, GA. Designed for kids with little or no formal training, this week long summer camp is an introduction to the techniques and language of the filmmaking process. From the "pitch" to final cut, campers are assigned to crews and together they turn their concepts into quality digital shorts. Campers learn how to market and distribute their film projects. It all culminates in a red carpet walk to a Hollywood-style gala and premiere screening of their short film.

Camp Flix enables it's participants to direct and edit their own projects. For campers contemplating a longer-term education in filmmaking or a career in the industry, this one-week session is an excellent introduction. It gives campers an understanding of the requirements and rigors of filmmaking as well as experience the exhilaration of making a short film from start to finish. For others, Camp Flix is an opportunity to have fun doing something completely different and learning a new art form.

# CURRICULUM

The Camp Flix curriculum has been developed by professionally active filmmakers and actors and refined by our instructors over the last six years.

## ACTING FOR CAMERA

Actors learn a mix of acting styles along with audition techniques and strategies, and they appear in the films that our young filmmakers make.

## PRE-PRODUCTION

Pre-production planning will include developing film scripts, storyboarding, scouting locations, creating sets and casting for roles.

## PRODUCTION

Young filmmakers fill specific positions, including Director, Cinematographer, Light and Sound Supervisor, with guidance from professionals with relevant knowledge.

## POST-PRODUCTION

Filmmakers will study and evaluate each shot and select the best takes based on camera work, composition, continuity, sound quality and other criteria. Student editors work with professionals on the special effects.

# SCHEDULE

## MONDAY

Campers are given an overview of various aspects of filmmaking, including Screenwriting, Directing, Lighting & Blocking, Sound, & Cinematography. All sessions are taught by professionals in each of these filmmaking disciplines. Campers are placed into film crews with other kids similar in age.

## TUESDAY

Crews begin writing and pre-production. They get trained on the equipment and they work with Atlanta's top acting coaches on technique and improvisation.

## WEDNESDAY

Crews rehearse and block scenes. Filming commences.

## THURSDAY

The film shoot continues. Teams watch dailies, select takes and begin editing their films. Campers will learn about some post-production techniques including Digital Editing, Green Screen, Visual Effects, etc.

## FRIDAY

The editing process continues. Crews work on the poster for their movie. Campers learn about movie marketing from experts in Marketing, PR, and Social Media. Masterclass session with professional filmmaker or actor.

Campers walk the red carpet, pose for photos and then present their films to an audience of friends, family and fellow campers.
